Every year we challenge ourselves to put on a show that will inspire, inform and impress our visitors. We encourage you to spend time talking with our local and national vendors and exploring new possibilities for transforming your own space. Our celebrity quests this year include Mark Brunetz of Style Network's "Clean House" and - back by popular demand - Animal Planet's Jarod Miller! We also welcome back for the second year on the Main Stage the very talented chefs of Niagara County Community College's Culinary Arts program, as well as the always entertaining Barefoot Wine and Bubbly Chef, Randy Arnold.

Be sure to visit "The Smart Loft," featuring small-space solutions and unique gardening designs. It's beautifully presented by the Interior Design Association of WNY, complete with stunning wide-plank maple flooring provided by M P Caroll Hardwood. Plus, discover some great tips on how you can use technology to your advantage in small spaces.

As you walk through the show, I encourage you to talk with exhibitors, ask questions and check out the show specials and hot new products! Visit our website for seminar schedules, contests, giveaways and special presentations planned especially for you.

Thank you for joining us at this year's Buffalo Home & Garden Show. Enjoy!

Now that we all understand what "going green" means, it's time to get technology smart in our spaces! This year, the Interior Design Association has brought to life a "Smart Loft," an intuitive living space that will give show visitors a taste of urban and industrial design. "The Smart Loft" is designed to show you how technology puts control of your home in the palm of your hand. Turn on the lights, turn down the heat or record TV...from anywhere.

Two design teams have worked independently putting their own spin on loft life by uniquely bringing the outside, in. Glass walls open to a roof-top garden which overlooks a nighttime city skyline. Don't miss the high-tech bathroom features, streamlined high-function kitchens and multi-tasking furniture.

Smart Loft Technology

When space is a premium and minimalism is in vogue, the stage is set for Sound and Theater to shine. All the technology throughout this year's "Smart Loft" was designed and installed by the professionals at Sound & Theater. We will be showcasing a fully automated lighting and audio system controlled by tablets and touch screens. Come see the hidden TV's in places you've never seen before. Change lighting scenes and start a plavlist at the touch of a button. We connect all of the technology in this Smart Loft and bring it together into one simple to use system.
